Vertimag

Versatile, efficient and ergonomic vertical storage system

The automated vertical storage system is made up of two sides of racks accommodating metal trays and served by a lift device.

Vertimag is a storage system for goods of any shape, weight and size, which exploits the available height as much as possible and reduces the footprint to one tenth of the previously occupied space.

The storage system can be equipped with the Ergo-Tech system, a further lift underneath the bay inside the structure, a Ferretto exclusive solution, which makes it possible to obtain the flows of a dual-level bay, always maintaining perfect ergonomics.

Ferretto® exclusive

- Ergo-Tech picking bay
- 15 models (5 widths and 3 depths)
